Abstract

[Click here to enter the abstract]

Abstracts are to be prepared using standard MS Word software. Abstracts must be in English and must not exceed one page. Do not revise the format indicated in this template. Encode the title in the format and space provided above (at the top of the page, in bold format). Input the names of the authors as indicated in the format below the title. After each author or group of authors, use a superscripted number to indicate their affiliation. Put an asterisk beside the name of the corresponding/presenting author. Leave a blank line after the authors/affiliation and then begin the text, typing it in the indicated position. Leave one blank line between paragraphs; indent each paragraph by 0.5". Do not revise the embedded header/footer that comes with this template. Remove this message after typing the abstract.

Keywords: ore, environment, Baguio, exploration (maximum of 5 keywords)
